ANSI is a testing certification. It means your sunglasses or glasses have gone through some pretty tough testing to ensure they'll protect your eyes from all kinds of hazards—like flying debris, intense light, splashes, kicked up dirt, flying fishing hooks and more.

The **ANSI Z87.1** certification is like the ultimate badge of honor for eyewear! To earn this certification, eyewear has to survive some serious challenges. The best of the best.

We've already certified many of our frames for ANSI rating and the goal is to have our best sellers all pass a high level of ANSI certification across the board.
